Does the participant need to use an assistive device for standing or walking?

☐ No ☐ Yes - DO NOT TEST [Click to deselect entry](#)**Instructions:**

"I would like you to look at the triangle you are about to walk on. Please trace the entire path and be sure to understand where you are going. Now, I am going to put a blindfold and a headphone on you. Without being able to see at all or hear sounds well, I will guide you through the first two segments of the triangle. Once we land on the second stop, you need to estimate how much you will turn and how far you need to walk on your own, back to where you started. I will not be guiding you for this last part, but I will be by your side the entire time to support you in case you fall or run into objects. When you think you arrive at the starting point, stop and let me know. Please do not remove your blindfolds and headphones until you are asked to remove them."
